

DRIVE THE ROAD LEADERSHIP TRAINING

BASIC AND ADVANCED COURSES

Leadership requires knowledge, confidence, and practical skills to lead people through workplace challenges. The Basic and Advanced Drive the Road Leadership courses go beyond leadership theory, blending real-world examples, interactive discussion, hands-on scenarios, and practical application into a powerful two-day leadership development experience.

Day One builds a strong foundation in essential leadership traits and helps participants better understand their own leadership and communication styles. Participants gain practical tools for accountability, conflict resolution, coaching, mentoring, employee feedback, counseling, and difficult workplace conversations.

Day Two takes those skills to the next level. Participants develop their personal leadership statement, explore common HR pitfalls, strengthen their coaching and delegation skills, improve employee evaluations, and learn to write, administer, and deliver effective Performance Improvement Plans.

This two-day course is designed for current and aspiring supervisors.

DATES: October 6 and 7, 2026
TIME: 0800–1700 each day
LOCATION: Marion County Public Health Department
2003 N Lincoln St
Knoxville, Iowa
