

IOWA First Responders

FirstNet®, Built with AT&T is the only network built with and for first responders – including Iowa law enforcement. NOW covering more first responders than any other network. In fact, our **coverage in Iowa** has increased by nearly 25% to cover the entire state, thanks to hundreds of Band 14 sites. The public safety community on FirstNet has access to the nation’s largest coverage footprint, reaching more than **2.81 million square miles** nationwide. More than 19,500 agencies and organizations, accounting for over 3 million connections, are already on FirstNet.

Join today and see how **Iowa first responders** can get access to unique FirstNet capabilities, like:

- **Prioritized access** – never competing with commercial traffic
- **Great rate plans and industry-leading devices** with advanced features
- **Push-to-Talk (PTT) communications** so you can collaborate with your team and other agencies
- **And no throttling** for FirstNet users anywhere in the country

Get the network that provides the support you need, so you can support your community.
